Evaluation Results

Departments and Instructors find students' written comments the most valuable element of course evaluations. Your evaluations are anonymous and not available until grades are posted.

Your feedback is important and matters. To help faculty get the most out of your feedback, please keep the following in mind:

*Specific constructive suggestions that focus on your learning and instructional choices are central to your feedback. Offer examples when needed – both positive and negative.

*Remember that you are writing to your instructor. When providing constructive feedback, be professional and respectful. Do not use offensive language or labels.

*Comments that are not related to your learning diminish the value of your feedback. For example, it is not helpful to comment upon an instructor's appearance or to include personal insults in your feedback.

Please compare this teaching assistant with others who have been your T.A. for courses taken at UCI. If a question does not apply to this course, choose the "0" or "Not Applicable" answer. All answers are anonymous.

Do you have any recommendations for your TA that would help that person be a more effective TA in the future?

Results:

- I think it would even be better if the discussions were more clearly presented with more details and concepts.
- Be more accommodating and understanding of students, especially when they have personal issues
- It will be better if the TA can provide more sample questions for students to practice.
- I think you were a great TA, and therefore do not have any other recommendations.
- Hopefully there will be more help from this TA in the future.
